

JOB DESCRIPTION FOR CONSULTANT (FRENCH)

Location: Bangalore, India

About the Company:

Technicolor India is a multi-dimensional studio within a single facility providing a cutting-edge confluence between art, technology and entertainment. Technicolor India offers world-class design and production services in animation and visual effects for motion pictures and television broadcast productions. Technicolor has been operating in India since 2007 and is now a 3000+ strong creative and technology services organization located in Bangalore.

Over the course of the last 3 years, Technicolor India has grown rapidly and boasts of a world class facility, talented team of artists, technicians and programmers, creative work environment, international partnerships and a brilliant body of work. Majority of Technicolor's clients are major studios across North America. Leveraging its past experience in providing services to global clients, Technicolor has developed the expertise and knowledge to take them to the next level.
